

# Natural Gas

High-Density Polyethylene (HDPE) & Medium-Density Polyethylene (MDPE) Pipe

# Natural Gas

## HDPE & MDPE Pipe

### Our HDPE & MDPE Gas Pipe is designed to last.

Our gas pipes are the ideal solution for natural gas distribution systems. Manufactured to pipe standards ASTM D2513 and CSA B137.4 with markings per ASTM F2897 in ISO 9001:2015 certified production facilities, our products deliver long-lasting durability.

#### HDPE Pipe (Black with Yellow Stripe)

- High-performance, bimodal HDPE resin
- Fabricated from PE 4710
- Available in CTS and IPS sizes
- ASTM D3350, D2513, & F2897 compliant
- UV stabilized to exceed 10 year above-ground storage requirements
- Continuous wall thickness monitoring
- 100% no rework

#### MDPE Pipe (Solid Yellow)

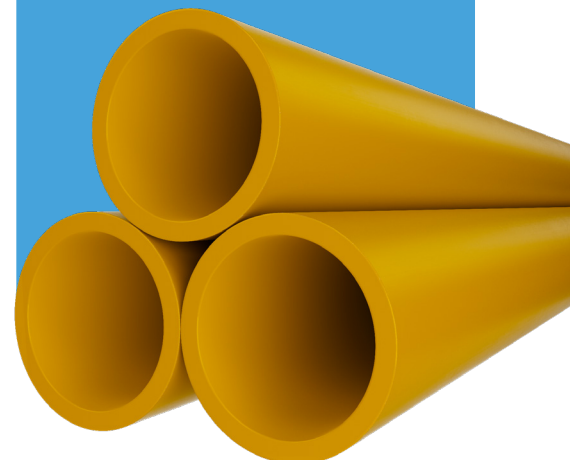

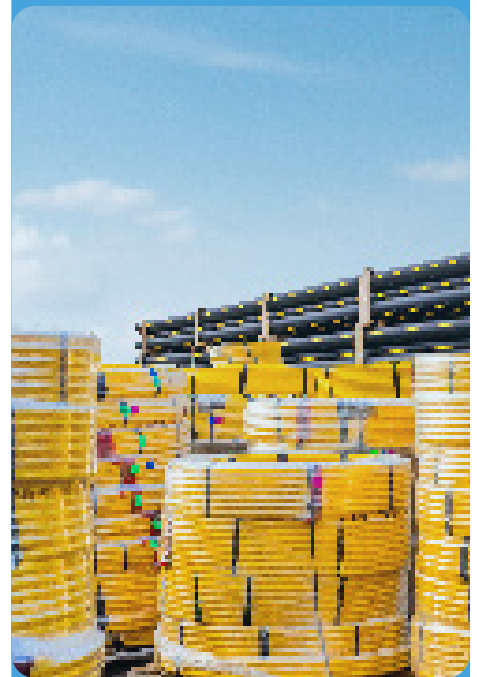

- Bimodal DGDA 2420 and unimodal MDPE available
- Fabricated from PE 2708
- Available in CTS and IPS sizes
- ASTM D3350, D2513, & F2897 compliant
- UV stabilized to exceed 3-year above-ground storage requirements
- Continuous wall thickness monitoring
- 100% no rework

#### About Infra Pipes:

At Infra Pipes, we produce polyethylene pipe solutions that enable vital infrastructure to support cities and power industries. With six production facilities in North America, we ensure reliability every day. Known for our technical expertise and responsive service, we assist infrastructure professionals in moving what matters most – safety, efficiency, and confidence.

#### STANDARDS & COMPLIANCE:

- ASTM D2513
- CSA B137.4
- ASTM D3350
- F2897
