

# HDPE Broadband & Telecom Products

### HDPE CONDUIT

Comm-Line™ HDPE Conduit is flexible, easily installed, and requires minimal labor. The product is chemically resistant, has a long service life, and is not susceptible to rust, rot or electrolysis. Conduit available in IPS ¾" - 16", DIPS 4" - 26".

### MICRODUCT & ACCESSORIES

Micro-Path™ Microduct includes multiple ducts bundled in one HDPE sheath, allowing for fiber network expansion without more digging. Multiple sizes, configurations, and colors available.

### INNERDUCT & ACCESSORIES

Corrugated flexible HDPE Innerduct is ideal for Optical Fiber / Communication Raceway applications, allowing for easier handling and less expensive installation equipment. Plenum and Riser rated products available. Supplied with pull-tape and available in multiple colors.
